Cecile Ecoffet, UCB BioPharma SRL, Truro, UK

Morgan Peniuta, AXDEV Group Inc., Brossard, QC, Canada

Dean Jenkins, UCB BioPharma SRL, Truro, UK

**Objectives:**

To assess rheumatologists' competencies in risk assessment, treatment and management of women of reproductive age affected with a rheumatic disease, and barriers to integrating shared decision- making (SOM) throughout the continuum of care

**Key Points:**

Findings suggest that rheumatologists experience challenges engaging women of reproductive age in open discussions that relate to family planning, reproductive health care, and treatment adherence, especially in the UK. Identified barriers across demographics can help tailor continuous professional development interventions to target audiences.
