

Title:

Identifying gaps in knowledge, skills and confidence among MS specialists to facilitate improved MS care

Conference:

American Academy of Neurology Annual Meeting- 2021

Author(s):

Klaus Schmierer, Clinical Board Medicine (Neuroscience), Barts Health NHS Trust, The Royal London Hospital & The Blizard Institute (Neuroscience, Surgery & Trauma), Queen Mary University of London, Barts and The London School of Medicine & Dentistry London, UK.

Patrice Lazure, AXDEV Group Inc., Canada

Jiwon Oh, Division of Neurology, St. Michael's Hospital, University of Toronto, and Keenan Research Centre of the Li Ka Shing Knowledge Institute, Canada

Thomas Leist, Division of Clinical Neuroimmunology, Comprehensive Multiple Sclerosis Center, Jefferson University, US

Suzanne Murray, AXDEV Group Inc., Canada

Sophie Peloquin, AXDEV Group Inc., Canada

Objectives:

To assess the causes of clinical practice gaps and challenges of healthcare providers specializing in MS (HCP-MS), and associated impact on the care of people with MS.

Key Points:

HCP-MS face significant challenges providing optimal care. This study identified the need for professional development activities to improve skills in cognitive testing, DMT decision-making, treatment monitoring and patient communication, while considering the heterogeneity of MS presentations.
