

Title:

The Interdisciplinary Healthcare Team: Where's the Team?

Conference:

Collaborating Across Borders II (CAB-II) 2009

Author(s):

Suzanne Murray, AXDEV Group

Martin Dupuis, AXDEV Group

Sean M. Hayes, AXDEV Group

Dilip N. Patel, Merck Frosst Canada

Kayla N. Cytryn, AXDEV Group

Objectives:

- Expand understanding of knowledge, skills, roles, responsibilities of HCT members.
- Develop sensitivity to patients' experiences within collaborative HCTs.
- Increase awareness of system issues impacting HCT functioning.

Key Points:

Interprofessional healthcare teams (HCT) are uncoordinated, with patients responsible for assuring continuity. This workshop will explore these gaps in an interdisciplinary context, giving participants opportunities to share perspectives and develop an understanding of patients' experiences of HCTs.
