**Objectives:**

This paper describes the Safe and Competent Opioid Prescribing Education (SCOPE of Pain) Train-the-Trainers program and its impact on 1) disseminating the SCOPE of Pain curriculum and 2) knowledge, confidence, attitudes, and performance of the participants of trainer-led compared to expert-led sessions.

**Key Points:**

The SCOPE of Pain TTT program holds promise as an effective dissemination strategy to increase the utilization of guideline-based safe opioid prescribing practices when treating chronic pain.
